PROFESSIONAL SUMMARY

QA Automation Engineer who recently completed a contract at TechNavy Philippines Corporation (March–September 2026), with hands-on experience designing, building, and maintaining automated end-to-end test suites using Playwright and JavaScript across multiple projects. Built a centralized Laravel-based QA automation platform for test execution, reporting, and analytics. Strong background in regression, functional, smoke, and sanity testing, test case design, and defect management using Jira. Comfortable validating REST APIs and collaborating with cross-functional teams in Agile/Scrum environments. BS Information Technology (Business Informatics) graduate, available for immediate hire and seeking to bring reliable, detail-oriented QA automation practices to an international software team.

TECHNICAL SKILLS

QA & Testing: Manual Testing, Regression Testing, Functional Testing, Smoke Testing, Sanity Testing, UI Testing, API Testing, Test Case Design, Test Plans, Bug Reporting, Agile/Scrum

Automation: Playwright, JavaScript, Node.js, End-to-End Test Scripting, Test Automation Frameworks

Development: PHP, Laravel, HTML, CSS, JavaScript, REST API, SQL

Tools & Platforms: Jira, Git, GitHub, MySQL, Postman, XAMPP, VS Code, CI/CD concepts

PROFESSIONAL EXPERIENCE

TechNavy Philippines Corporation *March 31, 2026 – October 10, 2026*

QA Automation Engineer *May 2026 – October 2026*

- Designed, built, and maintained Playwright (JavaScript/Node.js) end-to-end regression suites covering critical business workflows across multiple client projects.
- Developed a reusable, scalable automation framework that improved maintainability, stability, and execution performance.
- Built a centralized Laravel-based QA automation platform with Playwright integration, execution history, pass/fail analytics, dashboard visualization, and automated email reporting of regression results.
- Owned QA for multiple projects, from requirement analysis and test planning to execution, defect tracking, and release sign-off.
- Investigated failed test runs, identified root causes, and reduced flakiness to improve the reliability of results.
- Validated REST APIs alongside UI flows during automated execution.
- Partnered with developers, project managers, and stakeholders in Agile/Scrum sprints to reproduce and resolve defects before production releases.
- Managed test cases, test plans, and bug reports in Jira, with Git/GitHub for version control and team collaboration.

QA Manual Tester *March 31, 2026 – April 30, 2026*

- Performed functional, regression, smoke, and UI testing on web applications.
- Executed manual test cases, logged defects in Jira, and verified fixes before deployment.

Technologies: Playwright, JavaScript, Node.js, Laravel, PHP, REST API, MySQL, SQL, Git, GitHub, Jira, Postman, CI/CD concepts

QA Intern (On-the-Job Training) — TechNavy Philippines Corporation *December 12, 2025 – March 25, 2026*

- Assisted in manual testing of web applications, including functional and UI checks.
- Learned and applied QA processes such as test case creation and defect logging.
- Gained hands-on exposure to the software development and QA workflow.

EDUCATION

Bachelor of Science in Information Technology — Business Informatics *Graduated: June 2026*

University of Pangasinan

PROFESSIONAL / QA PROJECTS

QA Automation Platform

- Built a centralized Laravel dashboard integrated with Playwright for automated regression testing, email notifications, execution history, and analytics.

DRIMS Regression Automation

- Built Playwright regression suites with reusable test scripts for a drilling/mining operations management system.

PeopleCore (HRIS) Regression Automation

- Built Playwright regression suites covering the Admin and Employee portals.

CERTIFICATIONS & ACADEMIC ACHIEVEMENTS

- Certificate of Completion – On-the-Job Training (OJT), TechNavy Philippines Corporation
- Certificate of Achievement – CITE 2025: We Build, We Thrive
- Certificate of Appreciation – CITE LaunchPad: IT Business Pitch Summit
- Certificate of Recognition – Best Business Informatics Project
- Certificate of Completion – EC004 Python AWS Course, Zuitt Learning Institute, Inc.
- Certificate of Completion – National Service Training Program (NSTP)
- Certificate of Participation – 100th Founding Anniversary of PHINMA University of Pangasinan

SCHOOL PROJECTS

Online Car Buying (CarDeal) — Capstone Project, 2024–2025

- Role: Project Manager / Developer. Led a multi-user platform (Admin, Buyer, Agent) built with HTML, CSS, JavaScript, and PHP Laravel, featuring vehicle listings, inquiry management, and user authentication.

WnR – Write n Read — Third Year Project, 2024

- Role: Front-End Developer. Built a digital platform for writers and readers using HTML, CSS, JavaScript, and Laravel, with story sharing and content management features.

FlashNews — Second Year Project, 2024

- Role: Full Stack Web Developer. Developed a mobile news app with HTML, CSS, JavaScript, and PHP Laravel, delivering real-time updates and personalized push notifications.

The Liquor Store (Android Studio) — Second Year Project, 2023

- Role: Front-End Developer. Built the front-end for an Android e-commerce app (Java, Android Studio, Firebase) for browsing and purchasing liquor products.

The Liquor (Web System) — Freshman Project, 2022

- Role: Full Stack Web Developer. Developed a web-based system (HTML, CSS, JavaScript) for liquor store inventory management, sales tracking, and business analytics.
